# Minisoft

Minisoft USPS Connector

Harness the power of the Pitney Bowes Parcel Service API for generating USPS labels, with Minisoft's USPS Connector. Minisoft's USPS Connector integrates with a wide variety of WMS, ERP and order management solutions, including Acumatica, Blue Yonder, CGS (Blue Cherry), EnVista, HighJump, Infor, Manhattan Associates, Microsoft Dynamics, Oracle, QAD, NetSuite, SAP and many more!

API keys are configured into the Ship/FX Account Profiles and connected utilizing the Secure Socket Layer (SSL) configuration through eFORMz. An API call to Pitney Bowes returns the label. eFORMz takes output from the WMS/ERP/OMS/CMS, formats it with the label and outputs it.

Shipping via USPS with Pitney Bowes

Unlike vendors who only offer access to discounted USPS Priority Mail, Parcel Select and First Class rates, Pitney Bowes also provides value-added services and capabilities that form a more complete solution for the needs of today's growing ecommerce shippers.

Ship/FX®

Minisoft's multicarrier shipping solution supports both parcel and freight (LTL/FTL) shipping. Choose from over 100 parcel carrier shippers including FedEx, UPS, USPS, DHL, Purolator, OnTrac, Lasership or Spee-dee. Ship internationally with Canada Post, Canpar, TNT, Royal Mail, Chile Express, Deutsche Post and more. ShipFX customers needing to ship via truck have access to over 350 trucking companies with ShipFX's freight shipping option.

Black box parcel shipping

- Use Ship/FX to automatically ship orders without the need for a traditional shipping station.
- If you have your packages' weights and dimensions, Ship/FX can process your orders and rate shop for the optimum shipment method based on business rules you define.

Browser-based shipping station

- Ship/FX also includes an easy-to-use browser-based shipping station that allows access to all your parcel and LTL/FTL carriers from a single user interface.
- Easily enter weights & dimensions.
- Avoid failed deliveries using the built-in Ship/FX global address validation feature.

Ship/FX: an eFORMz® App

Ship/FX was developed in eFORMz. As an eFORMz App, Ship/FX can generate a wide variety of forms and labels including bills of lading, drop ship packing lists and barcode labels. Ship/FX easily installs as an eFORMz software extension.
